

## Traction system for Graco hydraulic LineLazer 130HS, 200HS, 200DC and 200MMA.

To improve the working comfort on long distances and on the climbs and increase productivity.

Adjustable speed from 0 to 5 km/h.

Control on the handlebar.

Driver by metal roller on the wheel controlled by hydraulic motor.

Smooth forward and reverse direction.

Easy installation on the line striping machine. Requires a 12V power supply, available on the LineLazer 200HS, 200DC and 200MMA.

For the LineLazer 130HS which has no power supply, it is necessary to add a power box (12V battery and battery charger included).

For LineLazer 130HS and 130HS Standard : item **22545-01** (hydraulic traction kit + power box).

For LineLazer IV / V 200HS, 200DC and 200MMA : item **22545-03** (hydraulic traction kit).
