

MARK[®] HP XT[™]

BREAKTHROUGH ELECTRIC HIGH-PRESSURE PERFORMANCE

The next evolution in high-pressure electric spraying—powered by XT Motor and AMPLIFI[™] Technology for pneumatic and gas-like performance from any standard outlet (230V or 110V). Atomizes 100% solids, silicone, vapor barriers and demanding protective coatings with quiet and compact, electric convenience—without compromise.

EXTREME PRESSURE FROM ANY OUTLET

Delivers up to 465 bar from standard 230V or 110V power.

LOWER COST OF OWNERSHIP

Eliminates fuel and engine maintenance—saving € 1.000's per year.

QUIET, COMPACT, EASY TO MOVE

Up to 25% lighter than the nearest gas sprayer for easier one-person transport and indoor/occupied work.

BUILT FOR HARD-TO-ATOMIZE COATINGS

Sprays 100% solids, silicone roof coatings, epoxy, vapor barriers, intumescent, and protective coatings.

ELECTRIC POWER. HIGH-PRESSURE PERFORMANCE. BUILT FOR THE TOUGHEST COATINGS.

XT MOTOR POWER *FOR PNEUMATIC AND GAS-LIKE PERFORMANCE FROM ANY OUTLET*

- High-torque, low-RPM design delivers consistent output under load
- Runs on 230V or 110V with dual-voltage flexibility
- Quiet operation opens more jobsites and more hours

AMPLIFI TECHNOLOGY *MORE POWER, MORE PRODUCTIVITY*

- Up to 50% more usable power from the same outlet
- Selectable amperage helps prevent nuisance tripping on common breakers

ENDURANCE™ PUMP WITH PROCONNECT™ *BUILT FOR UPTIME*

- Direct-immersion Endurance Pump designed for 100% solids, epoxy, vapor barrier, intumescent, and other hard-to-atomize coatings
- ProConnect lets crews swap the lower in minutes to minimize downtime and avoid missed deadlines

RAPID RESPONSE CONTROL AND DIGITAL DISPLAY *PRECISION UNDER PRESSURE*

- Fast, accurate pressure adjustments
- Consistent atomization across demanding materials

TURBOCLEAN FLUSH AND WATCHDOG™ PROTECTION *CLEAN FAST AND PROTECT YOUR INVESTMENT*

- Clean 3× faster using less fluid—get back to spraying sooner
- WatchDog automatically shuts down to help prevent costly damage

Model	Part No.
Mark HP XT Complete	18H415
Mark HP XT Big 150	18H416

Max. Pressure ¹	465 BAR (6750 PSI)
Max. Flow	5.71 LPM (1.5 GPM)
Max. Tip Size	0.041"
Voltage Range	110V/230V Flex Voltage
Supported Materials	100% solids coatings, epoxy, silicone, vapor barriers, polyurethane and more

BUILT FOR HIGH-PRESSURE COATING WORK—ENGINEERED TO KEEP CREWS MOVING.
